FLY FISHING

During the first four classes the fishing instructors will work on topics like an introduction to fly fishing equipment, "reading" the water, stream-side etiquette, insect identification, tying effective knots or casting. Each class will combine PowerPoint presentations and videos so each point is carefully and clearly illustrated. During the final four weeks you start casting outside or go to area streams so instructors can provide hands-on demonstrations. For more information about these classes please visit our website www.cwctu.org

PARTICIPANTS WILL NEED A NY STATE FISHING AND DEP WATERSHED PERMIT. BOTH ARE EASILY AVAILABLE ONLINE

Thursdays at Bradhurst Community Center

FLY TYING

You don't need any tools to get started. During the first week we'll take a look at tools and materials and make some recommendations. We have some loaner equipment, too. We start tying week 1. Every week our instructors take you, step by step, through two new patterns. They start every pattern with a video that shows you how to tie the pattern. They then work with you to tie the pattern. We supply all of the materials you need. At the end of each class you will receive written instructions so you can practice at home.
